

# VARDAAN

Inorganic Micronutrient Mixture

Presenting a range of best quality inorganic micronutrients... VARDAAN, COSOMIC, REMEDY, These are the most pure chemicals available and pass through our stringent quality criteria. They can be used safely for soil application.

Vanita Agro manufactures micronutrient mixtures by using specially procured inorganic micronutrients. Our brands 'VARDAAN, COSOMIC, REMEDY', are widely accepted by Indian farmers. Since the raw materials used are most pure, the micronutrient mixtures are completely water soluble at application pH. They are free from chlorides and toxic metals and hence do not give any scorching effect on plant leaves. All these micronutrients can be used for foliar application or fertigation.

## VARDAAN Soil Application

### Dosages

- For banana, sugarcane, grapes & annual crops - 20 kg / acre.
- For vegetables & other crops - 10 kg/acre.

### Packing

- 5 kg, 10 kg

% Fe	% Mn	% Zn	% Cu	% B
VARDAAN soil application				
5.0	2.0	1.0	0.5	1.0
VARDAAN soil application - High Zinc				
5.0	2.0	10.0	--	0.3

## VARDAAN (liquid)

### Dosages

- For foliar spray - 3.0 to 5.0 ml / litre
- For drip irrigation - 1 - 2 litre / acre

### Packing

- 20 lts, 5 lts, 1 lt., 500 ml, 250 ml, 100 ml

Parameters						
% Fe	% Mn	% Zn	% Cu	% Mo	% B	
Specifications						
2.5	1.0	3.0	1.0	0.1	0.5	

## VARDAAN Soil Application

- Contains adequate proportion of necessary micronutrients.
- Available in powder form, best for soil application.
- Can be formulated and supplied according to customer demand.
- Being free of sodium and chlorides, VARDAAN is safe for root system.
- VARDAAN enhances availability of primary and secondary nutrients to crops.
- VARDAAN improves crop growth and disease resistance power of plant.
- In fruit crops, increases fruit potency and fruit size.
- Useful for sugarcane, vegetables, fruits, flowers and all oil seed crops.
- Helps plants for auxin production.
- If applied with secondary nutrient mixture (SUPPORT), it gives better results.

## VARDAAN (liquid)

- Contains all inorganic micronutrients required by plant in desired proportion.
- VARDAAN liquid is clear, transparent and instantly soluble in water due to pure raw materials.
- VARDAAN liquid is free from sodium, chlorides and toxic metals and hence does not give any scorching effect on leaves. It is safe for root system when used for fertigation.
- VARDAAN liquid is applied on all crops by foliar spray. It is also preferred to be used for drip irrigation since it dissolves in water instantly. It is user friendly.
- All elements are made immediately available to plants when applied through foliar spray. Foliar spray is preferred when soil pH is very high.
- When applied, plants become healthy and disease resistant & gives best yield & quality of farm produce. Shading of leaves, flowers & fruits is controlled.
- Do not use with any of the phosphatic water soluble fertilizers.
- VARDAAN liquid can be formulated according to local requirements of customers.

# REMEDY & COSOMIC

Inorganic Micronutrient Mixture

## Properties & uses

- COSOMIC & REMEDY contain all inorganic micronutrients required by plant in desired proportion.
- Raw materials used are most pure and hence COSOMIC & REMEDY are completely water soluble.
- COSOMIC & REMEDY are free from sodium, chlorides and toxic metals and hence do not give any scorching effect on leaves and are safe for root system when used for fertigation.
- COSOMIC & REMEDY are applied on all crops mainly by foliar spray. They can also be used for fertigation.
- All elements are made immediately available to plants when applied through foliar spray. Foliar spray is preferred when soil pH is very high.
- When applied, plants become healthy and disease resistant & give best yield & quality of farm produce. Shading of leaves, flowers & fruits is controlled.
- Do not use with any of the phosphatic water soluble fertilizers.
- COSOMIC & REMEDY can be formulated according to local requirements of customers.

### REMEDY

#### Dosage

For foliar spray -  
1.5 to 2.0 gm per litre.

For drip irrigation  
500 gm per acre per dose.

#### Packing

100, 250, 500gms, 5, 20 kgs.

### COSOMIC

#### Dosage

For foliar spray  
2.0 to 3.0 gm per litre.

For drip irrigation  
500 gm per acre per dose.

#### Packing

500 gm, 5 kg, 20 kg

Parameters	% Fe	% Mn	% Zn	% Cu	% Mo	% B	
COSOMIC	2.5	1.0	3.0	1.0	0.1	0.5	+++
REMEDY	4.0	2.5	3.5	1.1	0.1	2.0	+++

#### Disclaimer

Careful tests have proven that our products are suitable for the recommended purposes when used in accordance with our instructions. However, since storage and use of these products are beyond our control & we are unable to foresee all circumstances arising there from, we are only liable for a consistent quality of the product, but the risk of its storage & use is not borne by us.

For best results, we recommend to use our products in pure form without mixing with other crop care compounds. However, if it is required to mix these products with other compounds for application, it is advisable to make a sample of the intended mixture and study effect of the same on a small portion of the crop and then only decide about application on the entire crop area.
